Lotus Early Access — Signup Terms

These terms govern signing up for Lotus early access on this page. They cover the signup only. Depositing into a pre-deposit vault is governed separately by the Lotus Pre-Deposit Vault LP Terms, presented and signed at deposit time.

1. What signing up does

Signing up registers your wallet address on the whitelist for the Lotus pre-deposit program. The signature is a free, offchain message signature: no gas, no onchain transaction, no deposit, and no movement of funds. Signing up reserves a place in the whitelist window; it does not create any obligation to deposit.

2. Indicated commitment

The commitment range you select is a non-binding statement of intent. We use it to plan the program and, for larger ranges, to offer an optional onboarding call. Your actual deposit, if any, may differ from the indicated range without consequence.

3. No guarantee

Signing up does not guarantee access, allocation, timing, or any rate or reward. Window dates are targets and may change. Reward rates are not fixed and may decline as more capital enters. The program, including its windows and incentives, may be modified, paused, or cancelled at any time without liability to signups.

4. Eligibility

By signing you confirm that participation does not violate any law applicable to you, and that you are not a Sanctioned Person (a person subject to, or owned or controlled by a person subject to, OFAC, UN, EU, or UK sanctions) and are not located in, or signing on behalf of a person in, a jurisdiction where participation is prohibited. Access may be restricted in certain jurisdictions.

5. Communications

If you provide an email address, we will use it to notify you about the early access program: window openings, closing reminders, and material changes to these terms. Separate product and marketing updates are sent only if you opted in to them, and every email includes an unsubscribe link. You can sign up without providing an email.

6. No offer, no advice

This page and the program are informational. Nothing here is investment, financial, legal, or tax advice, and nothing here is an offer or solicitation to buy or sell any security or financial instrument. Lotus is a self-custodial protocol; you act on your own behalf and your own judgment.

7. Your data

How we handle signup data (wallet address, signature, indicated commitment, optional email) is described in the Privacy Notice.

8. Changes

These terms are effective from their publication on this page. They may be updated before the deposit windows open; material changes will be notified to email signups and posted on this page. Deposits are always governed by the version of the LP Terms signed at the time of deposit, not by these signup terms.

9. Governing law and disputes

These terms are governed by the laws of the State of New York. Disputes are resolved by binding arbitration administered by the American Arbitration Association, on an individual basis, in New York.
